

## ASSEMBLY INSTRUCTIONS FOR LINDSTROM TABLE

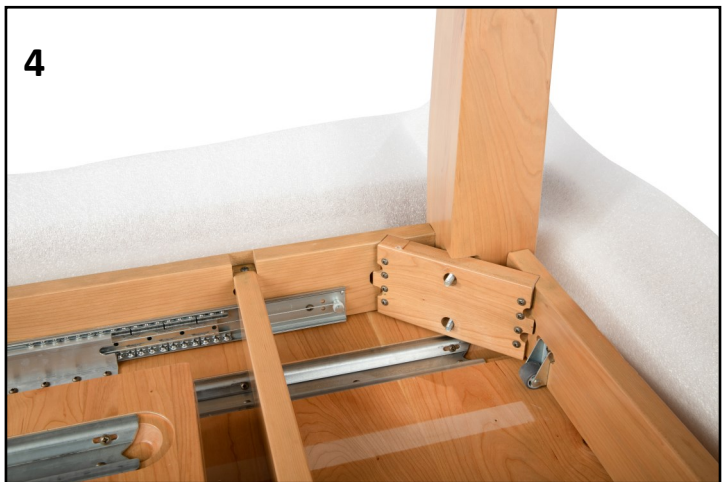

1 Place box containing table on floor, with taped edge of box upward for opening. Cut tape to free top box.

2 Lift and remove top box. This should reveal table top lying face down.

3 Legs will be installed while table top is in box. Locate legs and clear corner of table where leg is to be installed. Cut foam in corner if more access space is needed.

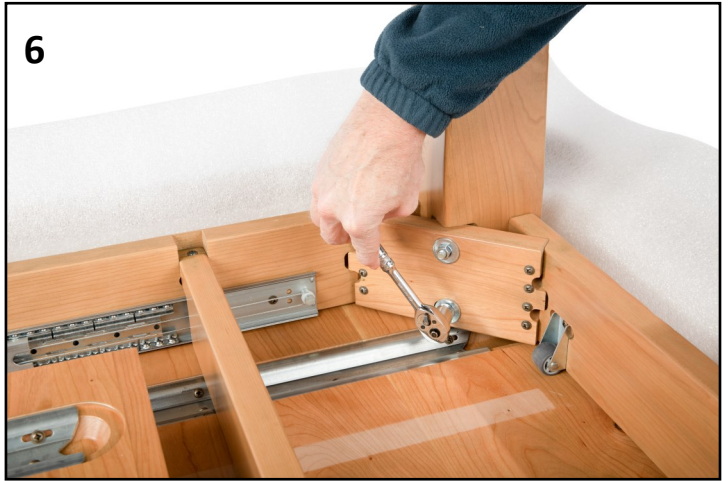

4 Slide leg bolts into position through the holes in corner brace.

## ASSEMBLY INSTRUCTIONS FOR LINDSTROM TABLE

5

With leg bolts through the holes in the corner brace, place washer over bolt and then the nut.

6

Tighten nuts using ratchet with 1/2" socket or 1/2" wrench. Tighten snugly, but there is no need to over-tighten. Repeat process for all four legs.

7

Table will now appear as this.

8

Table is ready to be placed on its legs.

## ASSEMBLY INSTRUCTIONS FOR LINDSTROM TABLE

Carefully place table legs on floor. This is a two person action, as table is well built and quite heavy.

Remove foam packaging from table top.

Remove foam packaging from folding leaf.

Table is now fully assembled and ready for many years of solid performance. Enjoy.
